Quick learner and a dedicated recent graduate with a Bachelor in Computer Science from Dalhousie University seeking new opportunities. 2+ years of practical experience working with React, HTML, and CSS, creating visualizations & designing UI. Looking to grow as a developer, as well as enhance my skills at the next opportunity.

Relevant Experience

Teaching Assistant @ Dalhousie University

January — April 2019 // Halifax, NS

January — April 2020

- ▶ Instructed students during tutorials to have them complete assignment-related goals, improving student's in-class performance.
- ▶ Guided students through troubling web-based questions, resulting in students learning and improving their web development fundamentals.
- ▶ Assisted in marking assignments for the professor to provide quick and essential feedback to the students.

Team Leader Co-op @ SuperNOVA at Dalhousie University

May — August 2018 // Halifax, NS

January — April 2020

- ▶ Developed and implemented multiple STEM lectures revolving around technology and computer science to present to youth in Atlantic provinces.
- ▶ Managed a 5-member computer scientist team to keep track of resources being used to ensure the team did not exceed a 15 hundred dollar budget during a two-month summer camp.
- ▶ Developed strong social and communication skills when teaching to over 800+ youth.
- ▶ Monitored youth during summer camp activities to guarantee all participant's safety.

Tree Cutter @ Novon Forestry Inc.

2016 — 2020 (Seasonal) // Chester Basin, NS

- ▶ Operated and maintained company brush saws and vehicles.
- ▶ Worked independently in wilderness environments to complete contractor jobs.
- ▶ Ensured safety when handling a brush saw by watching workplace surroundings.
- ▶ Learned essential first aid and CPR skills to use in case of emergencies.
